

CITL Workstudy Recruitment Flyer

Human-in-the-Loop LLMOps | Technical Writing | Portfolio Projects

AI Anxiety Is Real. Uptraining Is the Practical Response.

CITL Workstudy closes the formal training gap by giving students supervised, real-project execution experience across LLMOps operations, technical communication, and AI quality control workflows.

What Students Build

- Technical walkthrough manuals with evidence mapping
- Prompt QA + human verification workflows
- Screen recordings + instructional media
- Portfolio-ready LLMOps documentation
